

Predefined confidence-aware success and failure audit

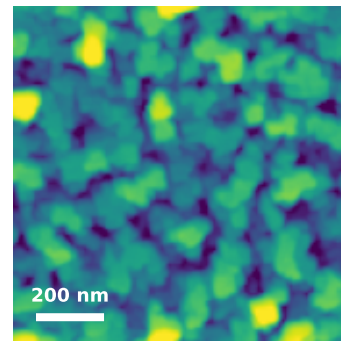

RHEED 6029
condition conf 20; morphology conf 88/100
expected island error 1.37z

M10 generated
condition err 0.42z, island err 0.96z

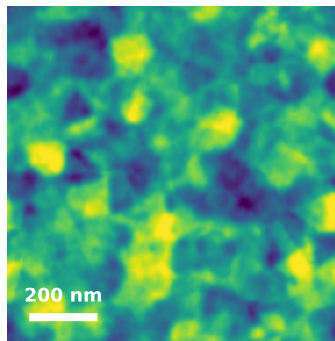

Measured AFM
Rq=2.56 nm

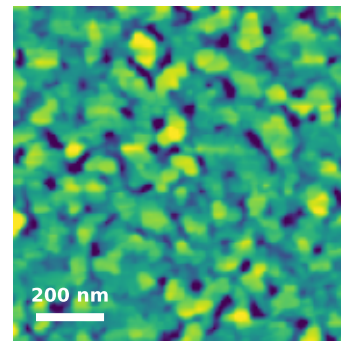

RHEED 6062
condition conf 17; morphology conf 44/100
expected island error 1.71z

M10 generated
condition err 1.62z, island err 2.26z

Measured AFM
Rq=3.09 nm

Cases are selected algorithmically from strict cross-fitted error and confidence ranks; no visual cherry-picking.
